James Eaton Dead.

A telegram from Commander Wilson of the Grand Island soldiers' home, on Wednesday, the 20th inst., announced the death of James Eaton, formerly of our city. The deceased veteran had been a sufferer from consumption for a number of years, and had been an inmate of the home for two or three years. No members of his family now reside here, nor could any trace be found of the whereabouts of Mrs. Eaton, who with one of the daughters is supposed to be living somewhere in New England. A married daughter has been living in New Mexico. Another daughter was last heard from in Lincoln in misfortune. No trace of the two boys Will and Steve has been had since they skipped the town last summer some time. The remains were consequently buried at Grand Island. Peace to his ashes.

Ask for Them.

McCook Mercantile Co.

Give Us an Easy One.

"Why is it THE TRIBUNE seldom if ever has a bill in for doing county job work," asked a friend, recently, after reading the commissioners' proceedings, in which two esteemed contemporaries had allowed bills for considerable sums for job work.

Dear friend, ask us something easy. We don't know. We only know that if promises were fulfilled we would get our full share. But even written promises are one thing and fulfillment another.

A Card to the Public.

I have for the present rented the north half of the Mrs. Smith Gordon residence on Madison street, where I may be found when not engaged professionally or absent from my office over McConnell's drug store. Z. L. KAY, M. D.

Deacon Morlan is a recognized authority on law, but he can't tell the difference between a ham and a piece of Norway pine, that's sure.

On account of the oil company advancing the price of oil, I am compelled to charge \$1.15 for gasoline in five gallon lots. H. THOMPSON.

When a child is born to Culbertson parents the newspaper colonels up there extend congratulations and advertise the medic, with a hilarious abandonment and a reckless gratuity quite inspiring these dull times.

Judge Hall of Lancaster county has issued a writ of mandamus ordering that the Nebraska Grand Lodge of the Ancient Order of United Workmen must meet according to its laws made and provided. There seems to be something in the wind unpleasant for Master Workman Tate.

Did it ever occur to you that a man or a firm who advertises has business sufficient to justify the expenditure, and the man who has a business can and does sell you goods cheaper than the man who has not, and the man who advertises sells his goods, and therefore has fresher and more up-to-date goods to advertise. A man who does not advertise must have goods that are out of date and must make out of the few customers which he has enough to pay living expenses. Look over the advertisements in this paper and buy your goods of the houses named there and you will get your money's worth.

April will enter very warm over the western states, and crops will advance rapidly. And there is no danger of floods in the Mississippi valley this spring, for the severe storms will be too far north.

1st and 2d warm and showery, 2d to 5th mild and pleasant, 6th and 7th rain followed by snow, 8th to 10th cold wave, 11th to 13th mild and pleasant, 14th and 15th cloudy with rain, 16th to 19th mild and pleasant, 20th to 22d rain turning to snow in the northern states, 23d and 24th cold and blustery, 25th to 27th pleasant, 28th and 29th cloudy with rain, and the month will close mild and pleasant and the crops will be much more advanced than in 1894.

Dear friends, did it ever occur to you that we set up whole columns of interesting recitals of your doings with never a cent of pay? Did it ever occur to you that we many times burn midnight oil over a dusty case of type setting up puff after puff that is worth dollars to you in an advertising way? Did it ever occur to you that many times when you tell us an interesting item about yourself, that simple justice would say, "Pay what it is worth?" We don't talk about ourselves very often, we are not whiners. This community is peopled with "white folks," the whitest on earth, but when people who should be our best patrons use us as meanly as the worst advertising fakes, our bile does stir gently. We are not mendicants, and beg to assure you that we'll give you one hundred cents' worth of work for every dollar you pay us. Come friends, stroke our fur for the right way and hear us purr.—R.

THE PUBLIC SCHOOLS.

BRITISH EDUCATION UP TO DATE. We teach the children Danish, Trigonometry and Spanish; Fill their heads with old-time notions, And the secrets of the oceans, And the cuneiform inscriptions From the land of the Egyptians; Learn the date of every battle, Know the habits of the cattle, Know the date of every crowning, Read the poetry of Browning, Make them show a preference For each musty branch of science; Tell the acreage of Sweden, And the serpent's wiles in Eden, And the other things we teach 'em Make a mountain so immense That we have not a moment left To teach them common sense.

Supt. Marble and Chief of Police Seavey of Omaha, are both of the opinion that compulsory education under the present system is practically a dead letter in the city of Omaha.

Dark ages punishments prevail in the Red Cloud schools, if we can credit rumors that come pretty well attested. For instance obstreperous high school pupils receive a spoonful of asafetida as a corrective. Give them Caster-oil professor.

Practical education is not the knowledge of crafts, trades and professions. It is not that which confers skill in the use of this or that instrument; it confers upon man the right understanding and ready use of himself. That is practical education, worthy of the name, which enables a person to maintain bodily health and comeliness. To command his own muscles and nerves. To employ his organs of sense with accuracy and effect. To adapt himself to outward physical conditions. To subdue unruly appetites and compel the material world to yield most benefit at least expense.—Venable.

If there is in existence any devilish device that will sooner or more certainly drive a man to strong drink or to commit murder or suicide than the deviline bicycle whistle, it hasn't reached McCook yet, that's all. Again is horrid homicide rendered gleefully justifiable. Come on with your victims.

Trilby has started women on a fresh crusade in the care of their feet. It gives a black eye to tight shoes. If the foot is to be beautiful bare, the shoe must be loose (as Trilby knew). The one thing that can keep the feet perfectly soft, the skin all over them like a baby's, is oil. Cocoa oil is the best for them, and they should be rubbed with it every day. The result adds greatly to comfort as well as to beauty.

H. B. Dolan, of Red Willow county, called at this office, last Saturday, and wanted us to say that he had been traveling over Box Butte county for the past three months, and that in his opinion it is as good a county as can be found anywhere, if farmed properly. He says that he will buy a farm here soon, and mentioned Joseph Barkhurst's farm, about six miles northwest of Alliance, as a model one. He says that Barkhurst has at the present time 1,000 bushels of wheat and about 1,000 bushels of corn, both of excellent quality, which he will sell for seed.—Alliance Times.

The weakness of Colonel Ager of the Burlington Route for practical joking is well known and established. The other day he sent a handsome looking ham and an attractive appearing piece of side bacon out for distribution to his needy friends, Supt. Campbell and Deacon Morlan of our city. The aid was left at the First National bank for distribution. The genial superintendent sized up the donation and smiled softly, but passed on, doubtless profiting by the suspicions of some of those present. The deacon sized up the donation, took in the situation and the luscious piece of bacon as well. He wishes he hadn't. It was a piece of wood cleverly covered with canvas, and the boys are making life miserable for him.
